A LITTLE ABOUT MY PROCESS

Creating a memorable brand involves more than just having a good logo.

My branding process is designed to develop a distinctive visual identity that helps you clarify your brand vision and reinforce your brand's foundation. This branding approach focuses on the entire picture, with a heart-centered approach to make it more comprehensive.

MY COLLABORATIVE CREATIVE PROCESS INVOLVES THREE KEY STEPS:

1. DISCOVER + INSPIRE

Once you complete the booking, you will receive a Creative Brief. This Brief will help me understand your unique business, including your mission, goals, target audience, market position, and brand personality. With all this information, I will work on a mood board to present you with the inspirational concept I have in mind for your brand.

2. DESIGN + DEVELOP

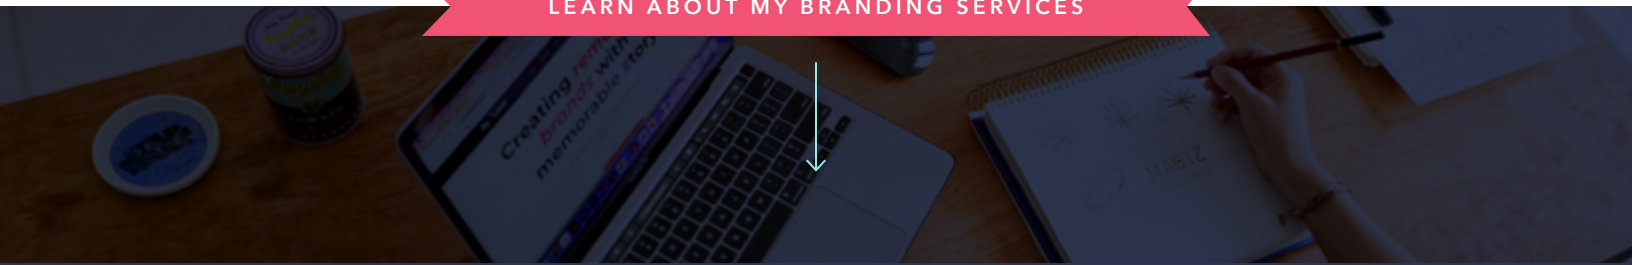

This is when I start designing! I'll present the branding concept to you: logo and logo variations, secondary marks, palette color, typography suggestions, and design elements that add depth to your styling. We'll review all the presentations to move forward with the adjustments if needed, and I'll polish and finalize everything. The result? A thoughtful and cohesive library of branding elements that authentically speaks to who you are and helps you reach your goals.

3. IMPLEMENT + GROW

Once your brand styling has been finalized, we will create custom marketing collateral pieces tailored to your specific needs. The goal is to ensure your brand is represented cohesively and consistently across all customer touch-points. I pay attention to every detail to ensure your brand is fully functional and accurately represented. Along with your final branding files, you'll also receive a brand guidelines document to help you maintain the integrity of your visual identity as you implement it on your own!

DOESN'T IT SOUND GREAT?

A Few DETAILS

WHAT TO EXPECT

AVAILABILITY

To give every client the attention they deserve, that's what I only work with one new branding client each month and I have limited spots available.

BOOKING PROCESS

Interested in creating something awesome together? YAY! The first step is to get in touch with me and tell me a bit about your business and what you want for your new brand. Once I hear from you, I'll send over some details and we'll arrange a call to get to know each other and make sure we're a good fit. To make things official, I'll send over a proposal with all the details, a contract, and an invoice. Once everything is signed off on and you've submitted your down payment, we'll be all set to start! *Please note that a 60% down payment is required to book your project in my calendar.*

REVISIONS

The design process includes 2 rounds of revisions of the brand concept + proposal and 1 round of revisions for your collateral items. I've found this to be more than enough to ensure clients are thrilled with and confident in the final product! When requested, additional revisions are charged at a rate of \$50/hr.

Our branding project timeline is about 4 weeks and I'll provide a detailed project calendar to keep us on track! Specific timelines and start dates will depend on my schedule. We'll discuss more before booking, so you know what to expect.

DO I OWN MY LOGO + BRANDING FILES?

Yes, of course! Upon receiving your final payment, the copyright and ownership of your final logo and branding files will be transferred to you.

WHAT FINAL FILES DO I RECEIVE?

After we wrap up, I'll send you a link to download your library of logos and branding elements, saved in different colors + sizes for your convenience, for web and print use, and in vector (*editable*) format. You'll also receive print-ready PDFs and/or web-ready graphics of your collateral items.
